

Flight Delays in 2020

Ayesha Darekar

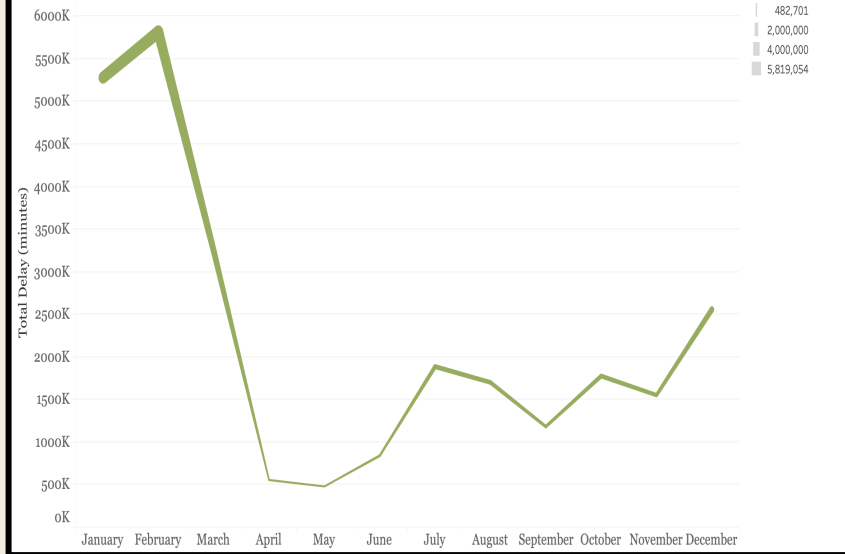

Departure Delays by State

- Texas, California, and Florida had the longest departure delays
- Most Midwestern states have some of the shortest delays in the United States

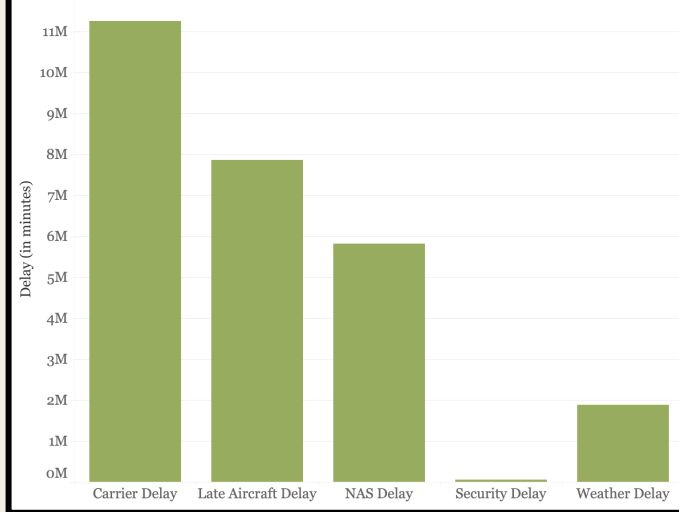

Dataset from: Bureau of Transportation Statistics

Total Delay in Minutes by Month

- From February to April, there was a steep decrease in national flight delay times
- After April, flight delay times increased overall

Delay in Minutes by Type of Delay

- Carrier delays accumulated the largest number of delay minutes in 2020
- A shortage of pilots that was seen in 2020 could have also caused carrier delays
